

Viaris – Set Charging Management Platform

1 Set up Procedure.

Follow the below instructions:

1, Download/Open the e-Viaris App	2, Set up your Station, if not already done so	3, Click on the Station ID

4, Go to 'Settings', then click on 'Firmware Update'	5, Update to latest available Firmware	6, Click on 'OCPP'.

URL address is - `ws://connect.longship.io/e42d233f0093415c920b43b769d310be/[StationID]`

Step 10:

Contact Charge Hub (support@chargehub.au) and provide the following details:

- EVV ID of the Station
- Name and Address of the Station. Ideally, the exact GPS coordinates and directions of where the Station is installed.

Notes:

1. If the Site is remote, then it always pays to give go back into the App and double check that all of the changes made were saved.
2. If any challenges, then call Charge Hub support on 1300 98 67 67
