

# CHARGE HUB

ELECTRIC VEHICLE CHARGING SOLUTIONS

## Steps on how to use the EV Charging Stations:

**Step 1:** Open or Download the Charge Hub App and set up an Account.

**Step 2:** Plug in your own Type 2 to Type 2 Charging Cable, between your vehicle and the Station. Make sure that the plug is fully pushed in.

**Step 3:** Start your Charging Session via the Charge Hub App, or by tapping your Charge Hub RFID Card on the RFID Sensor located on the front of the Station.

Refer to <https://www.chargehub.solutions/driver-guide>

**Step 4:** To finish your Charging Session, stop via the Charge Hub App, RFID Card, or your vehicle console. Remove your cable.

Please send us any feedback via the App.

**Have a Great Day!**
